

Take Your Choice

When you want drug store goods, come in person, mail your order, phone or write.

The progress made throughout the country due to the universal use of the telephone and the parcel post enables people to trade with us as conveniently from a distance as though they made a personal visit to our store.

Of course, we are glad to have you come in person whenever possible—but don't do without drug store goods because you cannot conveniently come.

"Come in person—phone or write."

other \$7,500 could be used for the upkeep and building of other roads in the county.

Thus the conclusion, why wait to build good roads, as such a bond issue would only cause an increase in taxes equal to the decrease on the present tax, as it would cost no more to have such roads than we are spending at present? E. J. FOUNTAIN JR.

CLUB CAMPAIGNS FOR HOSPITAL.

Yoskum, Tex., June 12.—A campaign for the erection of a modern hospital has been launched here by E. Herder, president of the Chamber of Commerce. It is proposed to organize a stock company capitalized at \$20,000.

GOOD ROADS FOR BRAZOS COUNTY

Shows How \$300,000 Would Build the Roads and the Percent Tax Rate Take Care of the Bonds.

Have you made a trip away from Bryan in the last few years? If you have, you had the question asked you, "Has Brazos County good roads?" It was an embarrassing question, wasn't it? You just had to hang your head and say, "No."

Did you ever stop to think how much more your property would be worth if you had a good gravel road leading from it to town? How much easier it would be for you to get your crop to market or your feed out? Your teams, wagons, buggies and cars would last years longer. Then did you ever investigate the cost of such a road?

Let us look into this and see. A good sixteen-foot graveled road can be built for less than \$4,000 per mile, but let us put this estimate on it in order to be safe. This would give us a road plenty wide for two vehicles to pass and would be good in bad weather if given a very little attention from time to time.

Now the principal roads of Brazos County are about as follows:

	Miles.
Bryan to Millican	18
Bryan to Benchley	8
Bryan to Coleview	8
Bryan to Pitts Bridge	9
Pitts Bridge road to Mudville and edge of county	5
Harvey road to Reliance, Steep Hollow, etc.	10
Bryan to Kurten	11
College road to Jones Bridge	6
Total	75

The total cost of seventy-five miles of such roads would be \$300,000. I am told that we spend annually \$30,000 or more on roads in Brazos County. The interest on this \$300,000 bond issue at 5 per cent would be \$15,000. This would leave \$15,000 for the sinking fund and for the further upkeep of these and other roads. Seventy-five hundred dollars of this could be put in the sinking fund, which would alone pay the bonds off at the end of forty years. There would be interest to accumulate on this, however, which would decrease the amount each year and in less than twenty years do away with it altogether. The
